Girls high school damaged

A Correspondent

GOPALPUR (Tangail), Oct 12: The tin shed building of Zamirunnesa Girls High School in Nagda Shimla union of Gopalpur upazila in Tangail district has been completely damaged by the current devastating floods.

The semi-pucca building of the school was razed to the ground when the onrush of flood water inundated the upazila on Sept 3.

The boundary walls, furniture books, science apparatus and other educational appliances have been completely damaged. The loss of property has been estimated at Tk 13.25 lakh.

The students of this school are now taking class in an open place amid insecurity.

The school only one of this kind in Nagda Shimla, was established in 1973 under the local initiative and since than it has been playing a vital role in providing educational facilities to the rural girls of the upazila.

The local people have appealed to the Government to rebuild the institution as early as possible in the interest of 300 girl students of the school.
