MATHEMATICS OLYMPIAD 10 regional champions selected

Staff Correspondent

TEN students were selected from Dhaka North Regional Olympiad, who would take part in the final round of the 8th National Undergraduate Mathematics Olympiad-2016.

This was the first regional round of Mathematics Olympiad, a platform for the undergraduate students to demonstrate their mathematical and analytical competences.

The event, organised by the mathematics and natural sciences department of BRAC University, was held on 12 November on the university campus, said a press release.

Students of 29 public and private universities of north Dhaka participated in this regional round, said a press release.

A total of sixty students, however, would be selected to compete in the final round, it added.

Out of ten, the first three positions have been secured by the students of BRAC University. Two other BRAC students jointly bagged the 9th position.

Selected 10 participants will be rewarded with Tk 10,000 each along with a crest and a certificate of excellence at the end of the contest.

Bangladesh Mathematical Society has been organising Undergraduate Mathematics Olympiad every year since 2009.

AF Mujibur Rahman Foundation, a charity devoted to knowledge and education, is financing the National Undergraduate Mathematics Olympiad this year.
