## 12 more technical training centres to be set up

The Minister of State for Labour and Manpower M A Mannan on Thursday told the Jatiya Sangsad that the present government was making frantic endeavours in finding jobs to the unemployed youths through imparting them necessary training, reports BSS.

Replying to a private member's resolution moved by Haji Mohammad Selim (AL-Dhaka) for setting up of a technical training centre at Kamrangir Char under Lalbagh thana, the State Minister said in addition to technical training institutions of the government, the Ministry of Labour and Manpower had been running 11 technical training centres in different parts of the country.

Mr. Mannan said that the government had also taken up a scheme to set up twelve more technical training centres including one for the women in the country.

The Minister appreciated the demand of Haji Selim and said it would not be difficult to set up one technical training centre in each thana provided there is availability of fund.

Haji Selim, however, withdrew his resolution following

the request of the Minister. Earlier, moving amendments, seven members, four from the opposition BNP and three from Awami League supported Haji Selim and pleaded that similar technical training centres be set up in their constituencies.

Nine other private members' resolutions were also introduced in the house for consideration on the second private member's day.
