BUET starts Computer Engg. course

By Our BUET Correspondent

Four-year B.Sc. course in Computer Engineering will be introduced in Bangladesh University of Engineering and Technology (BUET) from the session 1986—87. The decision was taken at the academic council meeting of the BUET on Monday. The number of seats of first batch in Computer Engineering will be 30 and the admission test of this batch will be held in February, '87.

It may be mentioned here that BUET has 15 departments under five faculties. But only seven of them offer B.Sc. degree in engineering.

While talking to this correspondent Dr. Syed Mahbubur Rahman Chairman Computer Engineering Dept. said that Computer Engineerin department was established in BUET in 1984 and since then it offers post-graduate degree. The decision of introducing the under graduate course was taken with a view to meeting the demand for computer engineers in the country.
