DU student invents device for data recovery of personal computers

Staff Correspondent

Monirul Islam Sharif, a student of the Computer Science Department of Dhaka University has prepared a data-recovery software to restore the lost data of the CIH Virus-affected computers.

The new device named "M Recovery" will be provided to the personal computer users free of cost from tomorrow (Sunday) from the Computer Science Department of Dhaka University, says a press release.

Interested persons have been requested to contact over Ph. No. 9661900-30/4900.

The inventor of the new device Monirul Islam Sharif is a student of 3rd Year Honours class.
