IEEE Power and Energy Society president and Virginia Tech electrical and computer engineering professor Saifur Rahman speaks at an international conference on advances in electrical engineering on the Independent University Bangladesh campus in Dhaka on Thursday. — Press release

A three days long international conference on advances in electrical engineering began at Independent University, Bangladesh on Thursday.

It was the 5th international conference organised by Electrical and Electronic Engineering department of the university on advances in electrical engineering, said a press release. New York-based Institute of Electrical and Electronics Engineers power and energy society's president Saifur Rahman attended the conference as chief guest.

The event was also addressed by the university's board of trustees chairman A Matin Chowdhury, vice-chancellor Milan Pagon, its School of Engineering and Computer Science dean Mohammed Anwer, the conference general chair Md Abdur Razzak and chairperson of the department Celia Shahnaz among others, said the release.

Saifur Rahman urged the engineers to be involved more in research and ensure human welfare.

The event ended with a vote of thanks by Mustafa Habib Chowdhury, organising chair of the conference.

During the conference, 171 papers selected from 550 papers from 19 countries would be presented.

Joyashree Roy, Bangabandhu Professor at Asian Institute of Technology in Thailand, would present a paper titled 'Strengthening Global Climate Response: What is in it for Bangladesh', the release added.
