The School of Science and Engineering of University of Liberal Arts Bangladesh organised a seminar titled 'Intelligent Virtual Agents for Education, Training and Health' at ULAB campus in Dhaka on Monday.

The seminar was facilitated by Deborah Richards from School of Computing and senior lecturer Nazmul Huda from School of Engineering of Macquarie University, Australia.

The guests were welcomed by the treasurer, deans of different schools, registrar, and heads of different departments, said a press release.

Deborah emphasised the importance of learning recent AI technologies since upcoming technologies are evolving around AI and virtual agent.

She also welcomed ULAB School of Science and Engineering graduates to explore Macquarie University research funds on the mentioned field of studies.

The other speaker Nazmul Huda exhibited the participants the road to join Macquarie University and answered the queries concerned. More than 60 participants attended the session including faculty and students.
