Little Angels' School, Azimpur

Sir.—There is a kinder garten school at Azimpur named 'Little Angels' School'. It is a good school and the achievement of the students is satisfactory. Unfortunately it is not a recognised/registered school. So the students of this school cannot sit for the primary scholarship examination. As a result, brilliant students leave the school at the end of class IV or at the beginning of class V. We therefore request the authority of the school to get it recognised/registered to be qualified to send up students for scholarship examination.

We have another request to the authorities concerned. It is for upgrading the school as a girls' high school. The two girls schools (Azimpur Girls High School and Agrani Balika Bidyalaya) in the locality can hardly cater to the needs of the area.—Yours etc.,
BEGUM
