Dhaka University of Engineering and Technology on Thursday inaugurated the three-day international conference on Recent Innovations in Civil Engineering and Architecture for Sustainable Development on its campus in Gazipur.

The conference was inaugurated by the university vice-chancellor Professor Mohammad Zoynal Abedin.

DUET pro-VC Professor Md Arefin Kawsar, Professor of Civil Engineering department Md Shaokat Osman were present at the conference, which was presided over by dean of the of civil engineering department faculty Mohammad Nazim Uddin.

Conference secretary Professor Md Abu Tayyub delivered welcome speech at the conference.

DUET VC said that the conference would be considered as a significant milestone in promoting sustainable practices in civil engineering and architecture. 'Through the conference, I believe that you will contribute to the domestic and international application of the ideas from the challenges and possibilities that we have in the field of research.'

He said that the presentations and discussions of many eminent invited speakers and researchers from different parts of the world in the conference would improve engineering and technology education in the country.

He also thanked all concerned faculties, departments for organising this international conference for three days, said a press release.

Professor Arefin Kawsar said that civil engineering, architecture and sustainable development were important issues of the present time. 'The conference will create a global forum for researchers and technologists in various disciplines of civil engineering and architecture to share their new ideas, innovative and problem solving techniques and provide students with an opportunity to learn about the latest innovations and research on sustainable development.'

Associate professor of civil engineering department of Tokyo University of Japan Yuwa Takahashi was the keynote speaker at the conference.
