BUET classes to resume Nov 12

The postponed classes of all the faculties of post-graduate students of Bangladesh University of Engineering and Technology (BUET) for the academic session 1986-87 will resume on November 12, reports BSS.

In notification, the university authorities asked the concerned students to attend their classes as per schedule.

All classes in the University had been closed since October 26 following disturbances arising out of the students' demands of abolishing the class test system and enhancement of their stipends.
