The long-awaited central students' union and hall union elections at the Shahjalal University of Science and Technology would be held on December 17 after a long gap of 28 years as the previous elections were held in 1997.

University vice-chancellor professor AM Sarwaruddin Chowdhury announced the polling date at a press conference at the conference room of the administrative building at around 9:15pm after a meeting of the university administration at same place.

The VC said that the election commission would disclose the details of the SUCSU and hall unions elections and will organise fair and credible elections.

SUST students, however, burst into anger immediately after the announcement of the polling date and started demonstration in front of the administrative building demanding polls at an earlier date.

The demonstration was under way at 9:40pm when the report was filed, campus sources said.
