The Department of Architecture at Chittagong University of Engineering and Technology, in collaboration with the Green Architecture Cell of the Department of Architecture at Bangladesh University of Engineering and Technology, is set to host the two-day "3rd International Conference on Green Architecture (ICGrA 2025)" on December 4-5, 2025.

The conference will feature leading academics, scholars, and researchers from various countries, including Australia, the US, and Netherlands.

A total of 16 technical sessions will be held over two days, where over 80 papers out of 150 submissions will be presented.
