School in bad hate

Narail primary school of Kashiani upazila in the district of Gopalganj is in pitiable condition. The school was taken over by the government immediately after liberation. But till today the school is housed in kutchha tin shed with broken doors and windows. In the rainy season the students suffer most.

Last year money was allot-

ted for the improvement of the school. But subsequently the fund was diverted to another primary school for unknown reasons.

The Education Minister is therefore requested to allocate necessary funds for the improvement of the school.
