Varsity officers go on strike from tomorrow

Staff Reporter

Officers of the country's six universities have decided to go on a 15-day strike from tomorrow to realise their two-point demand.

Bangladesh Inter-university Officers Federation (BIOF) called the strike through a press release yesterday.

The officers also observed strike for 10 days, through three separate programmes, recently demanding revision of their pay-scale and inclusion of their representatives in various bodies of the universities including the Syndicate and the Senate.

The services related to transportation, medical gas, water supply and electricity would be exempted from the strike-call, the press release said.

It also expressed concern that despite recommendations by a Government committee, formed earlier to look into the demands, no step was taken as yet regarding this and added the Federation would not be responsible for any situation arising out of the strike.
