Disparities in education to be removed

MUNSHIGANJ, Oct 1: Education Minister Kazi Zafar Ahmed on Friday said that all existing disparities in the field of education should be removed in order to introduce a people-oriented education system in the country, reports ENA.

He was addressing a gathering of local elite at the auditorium of Horoganga College here on Friday afternoon.

The Minister said the people-oriented education will never come into being unless all existing disparities in the field of education are totally removed.

The Minister said the new education policy will be formulated within the specified time and necessary work is being carried out in the light of all past reports of the Education Commission. Kazi Zafar said the education which does not reflect the hopes and aspiration of the people is not necessary at all.

Later, the Minister visited the science fair held here and announced three gold medals for the best participants.
