

## Removal of disparity in edn. system stressed

Education Minister Kazi Zafar Ahmed on Wednesday said that a people oriented education system could only be possible when the existing disparity in the educational arena is removed, reports BSS.

He said compulsory primary education and reduction of expenses in education are the prerequisites for introducing people oriented education system.

Addressing a reception accorded to him by the residents of old Dacca at Lalkuthi the Education Minister said the National Education Advisory Council entrusted with formulating an education policy will certainly give proper attention to the hopes and aspirations of our commonmen deprived of the light of education. Mr. Ahmed said the Education Report prepared earlier will also be duly considered to incorporate the good points therein to include those in the Education Policy.

The Education Minister said education workshop will be arranged in each divisional and district headquarters highlighting the priority in the sector. He said once the draft policy is prepared it will be circulated throughout the country and elicit public opinion from all quarters.
