## Sadeque calls for more effective inter-varsity coordination

Education Minister A S H K Sadeque on Monday held a meeting with the Vice Chancellors of universities at State Guest House Padma in Dhaka, reports BSS.

The Vice Chancellors informed the minister of different aspects of the present academic situation in the universities. They expressed the opinion that the combined project management sometimes hampers development planning of the universities. If each university adopts development plans as per its own project process, the development process of the universities would be expedited, they said.

The Education Minister said, an inter-university coordination would have been more effective as independent academic sessions of universities are affecting inter-university academic communication.

The Vice Chancellors also discussed with the Minister issues relating to pension scheme for the teachers and other matters.
