The government has formed a task force to recommend ways for ensuring transparency, accountability and dynamism in the country's education boards after reviewing their overall activities, reports UNB.

The Task Force, with Vice Chancellor of BIT Council Dr Nazrul Islam as convenor, has already began its work. It is expected to finalise its report by June 30, said an official hand-out on Saturday.

Elaborate programmes have been undertaken to implement the aims and objectives of the task force.

The members of the Task Force will exchange views and take suggestions from experienced people, including former officials and employees, involved in education administration and other interested persons.

Interested people, institutions and association have been requested to convey their opinions and suggestions or specific allegations, if any, to the Task Force Convenor, Dr Nazrul Islam, either directly or by mail at his office (House 29, Road 10/A, Dhanmondi R/A).

The Task Force seeks cooperation of all concerned to help raise the standard of education in the country by ensuring a transparent, accountable and dynamic education administration.
