BUET Architecture students seek PM's intervention

Varsity Correspondent

The students of the Department of Architecture of BUET submitted a memorandum to the Prime Minister and Chancellor of the university on Tuesday seeking her intervention in resolving the present stalemate arising out of the introduction of the newly admission system for the department.

In the newly introduced admission system of the department, marking on drawing is reduced in the Written Test from 70 per cent to 30 per cent by the BUET authorities and that has created the stalemate.
