BUET classes suspended till July 13

BUET Correspondent

All classes of Bangladesh University of Engineering and Technology (BUET) were suspended for about a month as the students demanded vacation during the World Cup soccer.

In a notice circulated on Monday afternoon without showing any reason the authority said all classes of undergraduate level would remain suspended from June 17 to July 13. It added that if necessary a condensed course could be continued for a special batch.

A huge number of students brought out a procession on Sunday midnight and damaged the seminar building demanding the vacation to watch the World Cup soccer. All-party Student Alliance was also formed on Sunday regarding the demand. The seniormost batch however, is against this demand.
