JUTA urges authority not to restructure selection body

By JU Correspondent

Jahangirnagar University Teachers' Association (JUTA) yesterday urged the university authority not to restructure the selection committees, that appoint teachers.

A proposal regarding changes in the committees has been discussed in a recent meeting of the university Syndicate.

"According to the JU Act, there should be dominance of experts in the 'selection committees,' but such changes will surely weaken the experts' dominance in the selection bodies," said a JUTA statement.

Signed by association president and general secretary, the statement was issued after a proposal to include the VC, Pro-VC and the Treasurer in all the 'selection committees' were placed before the JU Syndicate recently.

"Loyalty to a particular party instead of talent and experience will get priority in appointing teachers if the three topmost executives of the university are inducted in all the selection committees," the statement added.
