### Of a school

Mohammadpur Girls' High School, Dhaka, has these days turned into a focal point for the activities of miscreants. It is alleged that the teachers of the school are being deliberately ignored. It seems that the teachers of the school are not being able to function properly, as a result of which education at the institution is fast becoming a farce. The tradition of the school as a model institution is eroding. In spite of the fact that the school has everything that it needs, according to the student-teacher ratio, two shifts have been introduced. This is telling on the teachers and other staff of the school. Recently, the teachers expressed the opinion

that they preferred a one-shift system, but they were not allowed to have their idea implemented. The state of affairs has created resentment in guardians, who feel that they cannot have their daughters study in such an environment.

It may be mentioned here that since the school began operating as a Bengali-medium institution, it has attained a good reputation. In 1985, during a strike by teachers of the school, some unruly elements were able to create chaos in the school. The rest is known to all.

How long will the situation that at present prevails in the school continue?
