055

the authority to remove bottle necks in the said syllabus for this batch and for the next batch as well making.

Geography should be an optional subject for both the Science and the Humanities groups, the study of Bangladesh being included as a compulsory subject in lieu thereof.

For the third batch of students now reading in Class VII and for other batches onward, syllabus for S.S.C. examination to be held in the remote future may be formulated on sound calculation by a committee of educational experts, thoroughly conversant with the national viewpoints based on human achievements with strict reference to the individual power of assimilation of the average students of S.S.C. standard and the minimum knowledge to be acquired by them.

SSC subjects

Considering the confusion from all direction with regard to the syllabus of the students now reading in Class IX under all Boards of Intermediate & Secondary Education in Bangladesh, we suggest some amendments to be made by
