

Change In Examination Schedule

Sir.—In the recent past, there have been appeal, in the columns of your daily for re-consideration of the Bachelor's Degree Pass Course Examination schedule, to commence from July 12th 1979. May we ask the authorities concerned not to bring about any changes in the schedule set for, as it psychologically affects the examinees and is considered an unhealthy practice of the past to publish a schedule and again make reconsiderations. On the other hand, we would like to request the authorities to consider examination scripts more leniently and thus increase the percentage of success.—Yours etc.. AN EXAMINER.
