Non-formal Education

Sir.—Mr. Siddiqur Rahman depicted almost all the aspects of the matter in his well written article 'Non-formal Education' appearing in your issue at 25.9.79. With reference to the context of that article I wrote a letter published in your issue on 1.3.79 in which I pointed out the cardinal aspect of non-formal education it is self-education and the sine quo non of education for geniuses. In an admirable post-editorial entitled 'Integration Of Formal And Non-Formal Education' in your issue of 14.11.79 Mrs. Rowshan Ara Feeroj has written 'So all the public examinations held in the formal system should be thrown open to private candidates outside formal school. Such suggestions from educationists and leaders of thought should be implemented.—Yours etc. RAFIUDDIN, Advocate Pabna.
