

Unfair Means In The Board Examination

Sir—System of admission into the Engineering & Medical Colleges and into Agriculture University by selection on test was so long a check but the sudden change of procedure of selection by the Medical College authority on considering the percentage of marks secured in the SSC and HSC gave impetus and fillip to the unfair means and forgification of first Division Certificates.

This year in some centres unfair means ran so rampant that the good boys lost their heart and this malpractice is likely to imbue the future generation of the candidates to remain in expectation of adopting unfair means.

In the above context may I humbly suggest to the Board Authorities to contrive alternative measure to check the unfair means and to allow those schools which are maintaining standard teaching in the estimation of Board authorities to issue pass certificates and to hold Scholarship Examination separately for the talents as in the case of Junior Scholarship Examination.—Yours etc., WALI ULLAH PATWARI, Rector, Matlabgoni J.B. High School, P.O. Matlabgoni, Dist. Comilla.
