## Call to recognise 16 homoeopathy colleges

CHITTAGONG, Apr 10, (BSS): Bangladesh Homeopathy Parishad on Wednesday called upon Bangladesh Homeopathy Board to recognise 16 homeopathy colleges of the country to save the future of 4,000 students studying in those institutions.

The students could not appear at the recently concluded examinations held under the board according to parishad General Secretary Dr Chandrashekhar Das.

He said that the students who started a hunger strike unto death before the National Press Club in mid-January, called off the strike following "clear assurance" from the proper authority that they would be allowed to appear at the examinations.

He said that unless their demands were met within 15 days, they would again go for hunger strike unto death to press home their demands.
