### S. S. C. question and UNO's role

We are surprised to read a news item published in a Bengali Daily on 22nd July 1987 regarding the high-handedness of the Upzila Nirbahi

Officer which has resulted in the failure of so many students in the last S.C.C. examination. The fact is that the U.N.O. deliberately caused distribution of "Kha" set question papers instead of "Ka" set during the examination of Islamiat. Again at the same time he purposefully got the examination scripts examined on the basis of "Ka" set question paper by the examiners concerned.

Nothing could be more unbecoming on the part of a responsible public officer than this, as the action of the UNO has resulted in the public officer than this as the action of the U.N.O. has resulted in the failure of almost all students in the said subject and has thereby created a deep sense of uneasiness and frustration among the students and their guardians

## LETTERS

who are mostly poor farmers of the locality. The local Upazilla Chairman brought the matter to the notice of the Ministry by personally calling on the Secretary, and it is the earnest appeal of the students and their guardians that the examination scripts be immediately re-examined on the basis of the correct question set, namely "Kha" set and the result published as soon as possible.

The local people would most humbly appeal to the government that the matter may kindly be enquired into and the persons responsible are suitably dealt with so that this sort of incident does not occur in future.
