### One-day weekly holiday in educational institutions

The educational institutions both government and private, will enjoy weekly holiday on Friday, an official handout said in Dhaka on Sunday, reports BSS.

The government took the decision after reviewing the practical situation of the educational institutions (Schools and Colleges), the handout said.

The Education Ministry, in a high-level meeting, evaluated that the educational institutions generally enjoy different types of holidays on different occasions.

It would be difficult for the institutions to complete the syllabus in time if the two-day weekly holidays, added with other holidays, the meeting reviewed.

So the two-day weekly holidays, as announced by the government will not be applicable to the educational institutions, the handout added.

The universities will decide the weekly holidays through their own syndicates and other policy-making bodies.
