BUET teachers to continue strike

Bangladesh University of Engineering and Technology Teachers' Association yesterday (Monday) decided to continue the teachers' strike as none of the association's demands had been met, reports BSS.

Following the violence by the outsiders within the BUET campus on October 19, 1991, the teachers' association had made demands which included formation of an enquiry committee and publication of its report by November 21, 1991; arrest and punishment of those involved in the incident, ensuring security for all within the campus and payment of compensation to the affected teachers.

A general meeting held in the city yesterday with Prof Jasimuz Zaman, President of the Association in the chair, reviewed the overall campus situation.
