Trained crows supplying copies to SSC examinees

From Our Correspondent

RAJSHAHI, Mar 21. Some people have engaged trained crows in supplying copies from outside to the examinees now appearing at the SSC examinations. This incredible incident was detected yesterday at an examination centre here.

The subject of yesterday's examination was mathematics and the incident took place at Rajshahi Government Madrasa High School centre at 10-03 am — three minutes after the examination began.

Sub-inspector Haider Ali of local police station was on duty at the centre. Suddenly he found that a crow, while flying over the centre dropped a piece of paper on the ground. The police officer picked up the paper and was surprised to see its contents.

The paper contained answers of some mathematics questions. He called on the headmaster of the school. It was found that these were correct answers of first four questions.
