Routine for HSC Examination, 1989

We are very much surprised and shocked to see the H S C Examination routine for 1989, recently published in the national dailies. According to the routine, the examination will commence on the 8th June '89 and will be over on the 27th June 89. The examination of Science subjects will be over by the 28th June '89 and that of Commerce subjects by the 18th June '89. The students in particular and the guardians in general are very much upset and cannot accept this sort of routine as they are not mentally prepared for it. Moreover it will create untold mental and physical pressure on them which will obviously affect their results. Thus, it is a question of life and death for the

examinees. Therefore the examinees and their guardians earnestly request the authorities concerned to kindly change the said routine, giving a gap of at least two days between each paper so that the examinees can get minimum time to revise the vast number of subjects properly. It may be mentioned here that never in the past was such a routine, without any gap of time (day) for examination, set, and therefore, the students are not at all used to it and obviously expect this year, too, such routine as they can get time to go through the whole subject at least once.
