## Science faculty students observe strike at DU

By DU Correspondent

Students of the departments of Chemistry, Bio-Chemistry, Micro-Chemistry and Applied Chemistry of Dhaka University yesterday observed a day-long strike at the Curzon Hall, Mokarram Hossain Bhaban and the Science Annex building of the university demanding revision of Section 13(1) of the Drug (Control) Ordinance 1982.

No class was held in any department of the Science Faculty. They will observe strike today also.

The students are demanding revision of the law, calling it discriminatory.
