**Student Admission
Notice**

Applications in prescribed form are invited for admission of students to three-year long Diploma-in-Engineering Course during 1989-90 academic session in the 18 Polytechnic Institutes of the country under Bangladesh Technical Education Board.

Minimum qualification required for admission and other terms and conditions:

1. Candidates must have passed SSC or equivalent examination obtaining 50% of total marks and 50% marks in General or Elective or Higher Mathematics.
2. Candidates passed their SSC examination in 1989 will be considered as regular. Apart from them, candidates passed their SSC examination in 1988 will get the opportunity to apply for admission if they have 50% of marks including 50% marks in Mathematics after deduction of 5% marks (of 1000 marks except grace marks) from their total marks obtained in SSC examination. Candidates who passed SSC examination before 1988 will be considered unfit for applying.
3. Application form and information regarding admission should be collected from respective Institute on cash payment of Tk 60/- only.
4. Seats will be kept reserved for women, tribal and candidates who passed two-year long trade course approved by Technical Education Board having SSC according to government rules. Admission will be made on merit basis from among the candidates if their number is excess than the reserved seats. Tribal candidates will be given the opportunity to take admission in technology of their choice according to their merit.
5. Last date fixed for receiving applications is upto 2 p.m. on 26.9.89. Admission test will be held on 19.10.89 at 10 a.m. at respective Institutes. Admission test for Architecture will be held on 20.10.89 at 10 a.m.
6. Quadruple number of students of total seats from among the applicants will be allowed to take part in the admission test on merit basis.
7. Total marks of admission test will be 300. Merit list will be prepared taking the marks obtained in the admission test plus 10% of 1000 marks of SSC or equivalent examinations.
8. Polytechnic Institute of respective areas should be contacted for application form and other detailed information.
