Rangpur Medical College closed sine die

Our Correspondent

RANGPUR, April 13: Rangpur Medical College has been closed sine die today following an untoward incident in which principal of the college was assaulted by a section of students.

It is learnt that the decision of the principal not to allow seven third-year students of the college to sit for the examination for promotion to the fourth year caused resentment among them who later along with other students attacked the principal and assaulted him.

Immediately after the incident the Academic Council of the college held an emergency meeting and took the closure decision.

It was not known what reasons prompted the principal to prevent these students from appearing at the examination.
