## UNICEF book launched

A book titled Dristikone (a point of view) dwelling on problems facing the grass-root people in different parts of the country was launched in Dhaka on Sunday, says APB.

Published by UNICEF, the book, the second volume in a series — is an anthology of articles by 10 journalists who wrote the pieces after visiting some selected areas the country sampled as models.

The book reflects 'UNICEF in action' focusing child and woman issues and is also a "mirror of successes and failures" the organisation has special adviser to UNICEF, Dhaka; M Mujibul Huq said at the launching of the book.

Editor of the volume Selina Hosain, Dipak Bhattacharya, Selim Ahmed and June Kunugi of UNICEF and a number of journalists took part in the discussions on the occasion.

The speakers stressed on making the people aware of their own problems like poverty and health hazard, as well as about how to overcome their plight through behavioural changes.

Suggestions were also made to publish rapid readers for the school-level students and launch TV programmes to increase the level of awareness among the masses.
