Ultrasound institute to be set up under DU

The government will set up 12 science and technology universities during the current Fifth Five-Year Plan, State Minister for Planning, Science and Technology Dr Mohiuddin Khan Alamgir said in the city yesterday, reports BSS.

The government is committed to extend all-out cooperation to improve medicare and its facilities in the country, he said while inaugurating the 10th annual general meeting of the Bangladesh Society of Ultrasonography (BSU) at a city hotel.

Prof Suhrab Ali, Dean of Post Graduate Medical Faculty of Dhaka University, also spoke on the occasion, presided over by BSU president Dr M A Karim.

BSU is going to establish an ultrasound institute to provide diploma on ultrasonography under the Dhaka University for the medical professionals.

About 300 doctors from Dhaka, Chittagong and other parts of the country attended the meeting.
