

Training on water safety plan begins at BUET

A three-day training course on 'Water Safety Plan' began at Bangladesh University of Engineering and Technology (BUET) here on Tuesday, reports BSS.

Vice Chancellor Professor Dr AMM Safiullah inaugurated the training course, organised by the International Training Network (ITN) Centre of BUET.

Thirty-five representatives from different government and non-government organisations working with water issues are taking part in the course.

Speakers at the function said around 36,000 children die of diarrhoea in Bangladesh every year, while another 25 lakh people
