

## *USTC students lock their institution for govt registration*

**Our Correspondent**  
Chittagong

THE MBBS students of University of Science and Technology Chittagong on Tuesday locked the institution's main gate demanding their registration under Bangladesh Medical and Dental Council.

They also locked engineering faculty of USTC, a privately run university, nearby the main campus. The students demonstrated on the campus around 12:00pm.

Terming the matter unexpected, USTC pro-vice-chancellor professor Nurul Absar told New Age that the authorities were trying to solve the matter as soon as possible.

Md Jabed, a student of MBBS 25th batch, told New Age that the students were forced to stage demonstration as the authorities did not pay the government fines in time.
