# University student fighting for life after brick fall

STAFF CORRESPONDENT

A private university student is fighting for life in a Dhaka hospital after a brick fell on his head from the roof of a three-storey building in Mohammadpur area on Friday afternoon.

Akhidul Islam, 22, a fine arts student of the University of Development Alternative, is under life support following a head surgery at Square Hospital on that day, hospital sources said.

The victim's family filed a written complaint with Mohammadpur Police Station, said Officer-in-Charge Jamaluddin Meer.

They picked up the building owner Mosharraf Hossain and his son for their negligence in maintaining the building, he said.

The incident happened on Road No-7 of Mohammadi Housing while Akhidul was returning home on Road No-8 of the housing from a Dhanmondi coaching centre, said his family.

The OC said Mosharraf told them that there was a family programme on the roof during the incident.

Due to the gathering, a brick fell down from an old wall that demarcated the roof, he quoted the building residents as saying.

Akhidul used to live with his brother-in-law Mostafiz Karigar who said Akhidul is the third among four siblings.
