

## Workshop on ETP // operation held at JU

**Bangladesh Sangbad  
Sangstha · Savar**

A WORKSHOP titled 'Training on Effluent Treatment Plant Operation and Maintenance' was held at seminar room of Jahir Raihan Auditorium on Jahangirnagar University campus in Savar on the outskirts of Dhaka on Saurday.

The environmental science department of the university organised the workshop which was inaugurated by vice-chancellor

professor Dr Farzana Islam as chief guest.

Chairman of the department professor Dr Amir Hossain Bhuiyan presided over the inaugural session of the workshop that was also addressed by pro-vice-chancellor professor Dr Abul Hossain and treasurer professor Sheikh Manjurul Haque.

Addressing the function, university vice-chancellor underscored the need for ensuring proper water management and safe drinking

water through making the people engaged in water management skilled and efficient.

She said that there was no alternative to enhancing the efficiency of the people, who are engaged in water management, to increase the supply of safe drinking water.

Sub project manager of the water treatment plant of the university's environmental science department professor Dr Khabir Uddin delivered welcome address at the function.
