-- Press release photo.

Students, teachers and representatives of different institutions termed the National Museum of Science and Technology, a unique centre for science education in Bangladesh capital Dhaka, and called for strengthening its activities.

Md Abdur Razzak, additional secretary of the Ministry of Science and Technology, was chief guest at the seminar titled 'Essentiality of Science and Technology Education' held at the science museum on Wednesday.

He said, 'If technology comes to stagnation, nature and greenery need to be combined with technology. In this regard, the science museum is playing a catalytic role.'

NMST director general Mohammad Munir Chowdhury said, 'The museum is being modernised regularly and the young generation is being encouraged about modern science, including science-based eating habits, environment protection, climate change prevention.'

Along with the technological revolution, one must know and obey the Creator and keep the natural order intact, he advised.

Dhaka University of Engineering and Technology, Computer Science and Engineering Department Associate Professor Emran Hossain, Her Power Project deputy director Nilufa Yasmin, Bapex DGM Roshnuzzaman, women affairs directorate program officer Raihana Azhar Swarna, among others, spoke.

Students, teachers and representatives of civil society participated in the event, said a press release.
